

BARBECUE RANGE 2015

# IMPRESSIVE GRILLING

Regardless of whether you want a barbecue to be the centerpiece of your outdoor entertaining area or you simply need something to sizzle up the steak and sausages at the flat or holiday home, Masport has the right model to suit your needs, lifestyle and budget. All barbecues in Masport's extensive range boast an array of additional features designed to make the most of your outdoor cooking skills. So be part of the great Aussie way of life this summer with a Masport barbecue.

## FAT AWAY DRAINAGE SYSTEM

Angled cookware helps to efficiently direct away excess fats, oils and unnecessary juices from cooking food. These drain along a channel and down to the tray and collection cup.

## TIMER

The alarm on this timer sounds, alerting you when your food has cooked for the desired set time.

## TEMPERATURE GAUGE

Takes some of the guess work out of barbecuing. It allows you to accurately measure temperatures to ensure ideal cooking conditions.

## BURNERS

Stainless steel burners are used for clean and efficient combustion. Exposed burners are protected by defusers that enhance flavours and minimise flare ups. Premium 304 grade stainless steel burners are fitted to all 210 series barbecues (excluding Elite W & Deluxe Inbuilt).

## SIDE-BURNER WITH LID

Gives you extra cooking space, perfect for frying or boiling vegetables and pasta.

## WINDOW 304 S/S HOOD

Masport uses only approved glass that is integrated into the hood without compromising the strength of the hood.

## ROTISSERIE

Uses direct heat off the rear infrared burner or indirect heat from the main burners. Great for beef, pork, chicken and even the Christmas turkey.

## INFRARED REAR BURNER

Ideal for cooking by the rotisserie all types of food such as poultry, beef, pork, and lamb. Used in conjunction with indirect heat, the rear burner offers the perfect finishing touches.

## KEBAB RACKS & SKEWERS

These stainless steel racks and skewers provide an easy way to turn food over the grill without sticking.

## NATURAL GAS CONVERSION

Natural gas conversion kits are available to run your barbecue from mains natural gas. (Available on all 210 series barbecues only).

## INTERCHANGEABLE COOKING SYSTEM

Extend your cooking options with the Masport Interchangeable Cooking System. Choose from the full grill, hot plate or pizza stone options. Versatility at its best!

## GENUINE ACCESSORIES

The Masport range of barbecues can cook almost anything. Masport has a range of barbecue accessories to help you get the best out of your barbecue cooking experience.

## BARBECUE COVERS

Keep your barbecue looking its best and provides extra protection from the elements.

## 304 STAINLESS STEEL

Provides more durability and better corrosion resistance for appliances used and stored outside.

## WHEN SELECTING A BARBECUE

Look for the Australian Gas Association decal on approved barbecue appliances. This means Masport gas barbecues are certified safe and reliable by AGA as the independent and accredited certifier.

## ALUMINIUM CONTROL KNOBS

featured on Masport's Premium models Super Grande RBW 210, Elite Grande 210 and Super Grande RBW 210 Inbuilt.

# 304 RANGE

Masport brings you this impressive range of barbecues where the majority of the panels and components are constructed from 304 stainless steel which is an austenitic steel with higher levels of nickel and chromium than the more common and lower cost 430 grade.

## SUPER GRANDE RBW 210

552589

*This is a great looking BBQ constructed in 304 stainless steel. A rear infrared burner fitted for direct cooking when using the rotisserie. This BBQ also features a glass window so you can see your food when the hood is down.*

- Bonus 400mm x 480mm Cast Iron Deep Dish included**

### SPECIAL FEATURES

Rotisserie unit, utensil hooks, cooking/warming rack, UV resistant cover, vitreous enamel cookware, castor wheels, stainless steel temperature gauge and cast iron deep dish.

## FAT AWAY DRAINAGE SYSTEM

The Fat Away Drainage system, allows for cleaner healthier barbecuing as it drains excess fat and oils away from your foods. It also gives you the added versatility of additional plate configuration with the three piece grill set and kebab racks. This allows you to cook your way.

### HOW IT WORKS

As you barbecue, fat and excess oils are directed away from your food, via the angled grooved grills and angled hot plate.

The fat and excess oils are directed off the cooking surfaces and into the draining channel at the rear of the barbecue. The excess fats and oils travel down the channel through a drainage chute.

The fat and excess oils are then directed cleanly into the drip tray where they will be collected into the slide out collection cup, for easy and safe disposal.

# SUPREME W 210

552899

This barbecue will provide you with the six burner set up finished in a classy black finish with vitreous enamel window hood balanced discreetly with a 304 stainless steel front dash.

## SPECIFICATIONS

- Convection style **hood with window** and with less vents **aids the infusion of flavour** and maintains consistent cooking temperatures

**Warranty and Disclaimer Info:**

All Masport products carry a manufacturer's warranty. Please refer to your warranty card supplied with each product for details and conditions for specific models. This brochure supersedes all previous Masport Barbecue Range brochures. Product specification, colours and prices are subject to change without prior notification. All models may not be stocked at all stores. Whilst care has been taken in the preparation of this document, Masport is constantly improving and updating its product range therefore model specifications may vary and should be checked at time of purchase.

\* 10 year warranty is limited to the grill body only.      \* 5 year warranty is limited to the grill body only.
